Overview

- A Client-side Command Line App in Python
- A Console Application Client in .NET
- Building a Desktop Application in .NET
- Understanding the Power of RESTful Home Automation for Clients
- Summary

Understanding the Power of RESTful Home Automation for Clients

- With a computer that fits in the palm of your hand...

- Use any framework,
- in any language,
- on any OS.

- The sky is the limit.

Summary

- A Client-side Command Line App in Python
- A Console Application Client in .NET
- Building a Desktop Application in .NET
- Understanding the Power of RESTful Home Automation for Clients
